dian for the minor children of perous journey through life. E. A. Dow, deceased, Jimmie Frankie.

A number of bills were filed in the court against estates now in process of administration. Adolfo Salas, administrator for the ago a ranchman and sheep ownestate of E. A. Dow was notified er in the Estancia Valley and to have the bills against the one of the first men to come to at its regular meeting in Jan- terday from Montrose, Colo.,

The court adjourned until Monday, November 22, at which time the final report of Lewis H. Cheney, administrator for the estate of Joshua H. Cheney, will near Montrose this year and be heard by the court.

New Pastor Arrives

Rev. B. F. Summers, recently appointed pastor of the Methodist Episcopal Church of Estancia arrived on last Saturday evening's train, to take up the work here. Mr. Summers has bands of sheep with ease." been spending the week in get-On account of the storm last matters.--Albuquerque Journal. to sell \$1,000 worth this year. Sunbay, no services were held in the morning, and but a small congregation was out in the evening,

On account of ill health, Mrs. Summers will remain in California at least for the present. Mr. Summers has a way of making friends at first acquaintance, and gives every reason to believe that his pastorate here will be successful. He has announced that Estancia has been made a station by SuperIntendent Blair, and services will be conducted each Sunday morning and evening commencing next Sunday.

The Estancia Valley.

We are not advertising for suckers, but for men, who want to live in a good country and will help build up the same. We want good men to come and develop this valley. We find as fine a soil as we ever saw, and good pure air and good pure water. We find that this country has proven very beneficial to people who have consumption; We want men to come here who have done something where they have lived and who will do something after they get here. We want men who believe in educating their children, and who will help in the near future to select one of the towns in our valley, Estancia, Willard or Mountainair, in which to build a college, that our children may be able to fill any station in life.

The undersigned citizens and farmers desire to put a few figures and facts before you in regard to what has been done here and what can be done inthe future.

A statement from Henry Love: -I have been here for three years. The first year I made 25 bushels of corn per acre, sod land without cultivation. The next year I made 15 to 35 bushels per acre, I sold \$750.00 worth of

Bro. ED. We were told that 6,000 men had filed in the valley.
